A Closer Look At Products That Are Shaping Our Industry

Epionce

Treat your face to Epionce's Lytic Lotion and experience clear, smooth skin that is free of blemishes, clogged pores, redness, and irritation. Epionce's Lytic Lotion is a single solution that resolves a myriad of skin care problems. Repay your skin for all it does by treating it with the best care possible. Lytic Lotion is an active treatment that effectively eliminates skin imperfections and uneven skin texture by loosening and removing dead skin cells on the surface. It also unclogs pores while reducing redness and irritation associated with several common skin conditions. For more information, please call 866-EPIONCE, or visit www.epionce.com.

NuFace

NuFace, a revolutionary home-use microcurrent device that lifts and firms the face in less than five minutes a day. NuFace reduces the signs of aging by utilizing microcurrent technology. The results are immediate and cumulative, lifting, and firming the skin while greatly reducing the appearance of fine lines and wrinkles, allowing the face to take on a more youthful appearance instantly. NuFace acts as an extension of the skin care regimen and enhancement to professional treatments. For more information, please call 888-360-9171, or visit www.nuface.net.

Dermystique

This four-step Advanced Blemish and Acne Treatment Therapy contains four products formulated to target mild to moderate acne. As a bonus, a fifth product, Blemish and Acne Spot Control Plus is included. All of Dermystique's acne products are free of Benzoyl Peroxide. Major ingredients include Glycolic Acid and Salicylic Acid in addition to a highly efficient ingredient complex unique to Dermystique. The products should be used in conjunction with each other and will yield amazing results in a relatively short period of time. For more information, please call 877-269-3223, or visit www.dermystique.com.

Biodroga

Biodroga Puran Formula is perfectly keyed to the special needs of impure skin. A carefully selected menu of active ingredients provides targeted response to the problem complex. Irritations are reduced and inflammatory processes prevented. The skin's natural protective mantle is strengthened. Special active ingredients normalize excess sebum production, thus preventing development of new impurities. The skin's defensive function is improved by the products' antibacterial effect.
